Subject index

Acetonitrile
Electro-oxidation and electroreduction of acetonitrile in aqueous acid solution. A DEMS study (Wasmus, Vielstich) 323
Activation energy
Experimental determination of the activation energy of an electrode process by the electrode surface temperature modulation method (Rotenberg) 469
AC voltammetry
Determination of the heterogeneous electron-transfer constant k_s of different hydrazyls using ac voltammetry (Abou-Elenien) 147
Adsorbates
Square-wave voltammetry applied to the totally irreversible reduction of adsorbate (O'Dea et al.) 287
Electro-oxidation and electroreduction of acetonitrile in aqueous acid solution. A DEMS study (Wasmus, Vielstich) 323
Adsorption
Adsorption characteristics of tetraphenylporphyrins on an amalgamated platinum electrode (Khanova, Lafi) 393
Alkali metal cations and pH effects on a splitting of the unusual adsorption states of Pt(111) voltammograms in phosphate buffered solutions (Feliu et al.) 475
Adsorption voltammetry
Adsorption voltammetry at a mercury ultramicroelectrode (Jin, Peng) 433
Alkali metal adsorption
Two-dimensional bismuth + arsenic alloys supported on Pt(111): an electrochemical study (Dollard et al.) 205
The redox behaviour of compressed bismuth overlayers irreversibly adsorbed on Pt(111) (Evans, Attard) 337
Amalgamated platinum electrode
Adsorption characteristics of tetraphenylporphyrins on an amalgamated platinum electrode (Khanova, Lafi) 393
Aminated poly(vinyl chloride)
Design of ionophore-free H^+-selective solvent polymeric membranes for further biomedical applications (Cosofret et al.) 169
Anodic electroluminescence
Anodic electroluminescence of p-InP (Meulenkamp, Kelly) 183
Aprotic media
Studies of electrode reactions in low ionic strength media using microelectrodes. Part 1. The reduction of nitrobenzenes in aprotic media (Bento et al.) 273
Axial anions
Effects of axial anions and solvent on the redox behaviour of nickel complexes with C-functionalized tetraazamacrocycles (Boudon et al.) 363

Biomedical applications
Design of ionophore-free H^+-selective solvent polymeric membranes for further biomedical applications (Cosofret et al.) 169
Biosensors
Electrochemical oxidation of H_2O_2 on Pt and Pt + Ir electrodes in physiological buffer and its applicability to H_2O_2-based biosensors (Zhang, Wilson) 253
Bismuth
The redox behaviour of compressed bismuth overlayers irreversibly adsorbed on Pt(111) (Evans, Attard) 337
Bismuth + arsenic alloys
Two-dimensional bismuth + arsenic alloys supported on Pt(111): an electrochemical study (Dollard et al.) 205

Calcium blockers
Nitro radical anion formation from nimodipine (Nuñez-Vergara et al.) 121

Capacitance transients
Double-layer dynamics in the adsorption of tetrabutyl ammonium ions at the mercury–water interface. II: Capacitance transients (Wandlowski, De Levie) 413
Carbene intermediate
A new carbene route for the electrochemical reduction of phenacyl bromide (Montero et al.) 457
Carbon dioxide
Electrochemical reduction of carbon dioxide on hydrogen-storing materials. Part 1. The effect of hydrogen absorption on the electrochemical behavior on palladium electrodes (Ohkawa et al.) 445
Carbon monoxide
Effect of CO on Pt-catalyzed decomposition of formic acid in ultrahigh vacuum (Columbia et al.) 93
Catalytic activity
Adsorption characteristics of tetraphenylporphyrins on an amalgamated platinum electrode (Khanova, Lafi) 393
Charge propagation
An impedance spectroscopy study of charge propagation in Nafion® films containing discrete redox sites (Sharp et al.) 223
Complex formation
Successive complex formation of multivalent ions with octaethylene glycol dodecyl ether at the nitrobenzene/water interface (Kakiuchi) 191
Computer models
A study of the response of microelectrodes used as detectors for gas chromatography (Lu, Tian) 27
Copper electrodes
Photoelectrochemistry and Raman spectroelectrochemistry of cuprous thiocyanate films on copper electrodes in acidic media (Son et al.) 135
Cuprous cyanide
The electrochemistry of a cuprous cyanide strike-plating bath (Chu, Fedkiw) 107
Cuprous thiocyanate films
Photoelectrochemistry and Raman spectroelectrochemistry of cuprous thiocyanate films on copper electrodes in acidic media (Son et al.) 135
Cyclic voltammetry
Nitro radical anion formation from nimodipine (Nuñez-Vergara et al.) 121
Two-dimensional bismuth + arsenic alloys supported on Pt(111): an electrochemical study (Dollard et al.) 205

Decomposition
Effect of CO on Pt-catalyzed decomposition of formic acid in ultrahigh vacuum (Columbia et al.) 93
Diffusion
The von Neumann stability of finite-difference algorithms for the electrochemical kinetic simulation of diffusion coupled with homogeneous reactions (Bieniasz) 13
Double-layer dynamics
Double-layer dynamics in the adsorption of tetrabutyl ammonium ions at the mercury–water interface. II: Capacitance transients (Wandlowski, De Levie) 413

Electrochemical doping
Impedance analysis of the electrochemical doping of poly(3-methyl-thiophene) from aqueous solutions of $KClO_4$, KCl and K_2SO_4 (Sunde et al.) 43
Impedance analysis of the electrochemical doping of poly(3-methyl-thiophene) from aqueous nitrate solutions (Sunde et al.) 59
Electrochemical kinetic simulation
The von Neumann stability of finite-difference algorithms for the electrochemical kinetic simulation of diffusion coupled with homogeneous reactions (Bieniasz) 13
Electrochemical oxidation
Electrochemical oxidation of H_2O_2 on Pt and Pt + Ir electrodes in physiological buffer and its applicability to H_2O_2-based biosensors (Zhang, Wilson) 253
Electrochemical reduction
Electrochemical reduction of carbon dioxide on hydrogen-storing materials. Part 1. The effect of hydrogen absorption on the electrochemical behavior on palladium electrodes (Ohkawa et al.) 445
Electrode reactions
Studies of electrode reactions in low ionic strength media using microelectrodes. Part 1. The reduction of nitrobenzenes in aprotic media (Bento et al.) 273
Electrode surface temperature modulation
Experimental determination of the activation energy of an electrode process by the

electrode surface temperature modulation method (Rotenberg) 469
Electron transfer
Determination of the heterogeneous electron-transfer constant k_s of different hydrazyls using ac voltammetry (Abou-Elenien) 147
Electro-oxidation
Electro-oxidation and electroreduction of acetonitrile in aqueous acid solution. A DEMS study (Wasmus, Vielstich) 323
Electroreduction
Electro-oxidation and electroreduction of acetonitrile in aqueous acid solution. A DEMS study (Wasmus, Vielstich) 323
EMIRS
Integrated electromodulated IR reflectance spectroscopy (EMIRS). Part 1: Noise reduction and better accuracy in the determination of EMIRS band centres (Beden) 1

Finite-difference algorithms
The von Neumann stability of finite-difference algorithms for the electrochemical kinetic simulation of diffusion coupled with homogeneous reactions (Bieniasz) 13
Formic acid
Effect of CO on Pt-catalyzed decomposition of formic acid in ultrahigh vacuum (Columbia et al.) 93

Homogeneous reactions
The von Neumann stability of finite-difference algorithms for the electrochemical kinetic simulation of diffusion coupled with homogeneous reactions (Bieniasz) 13
Hydrazyls
Determination of the heterogeneous electron-transfer constant k_s of different hydrazyls using ac voltammetry (Abou-Elenien) 147
Solvent effects on the redox characteristics of different hydrazyls in nonaqueous media (Abou-Elenien) 303
Hydrogen bonds
On the role of hydrogen bonds in thiourea condensates— the correlation of a quantum-chemical approach with the experimental results (Romanowski et al.) 83
Hydrogen peroxide
Electrochemical oxidation of H_2O_2 on Pt and Pt+Ir electrodes in physiological buffer and its applicability to H_2O_2-based biosensors (Zhang, Wilson) 253
Hydrogen-storing materials
Electrochemical reduction of carbon dioxide on hydrogen-storing materials. Part 1. The effect of hydrogen absorption on the electrochemical behavior on palladium electrodes (Ohkawa et al.) 445

Impedance spectra
Impedance analysis of the electrochemical doping of poly(3-methyl-thiophene) from aqueous solutions of $KClO_4$, KCl and K_2SO_4 (Sunde et al.) 43
Impedance analysis of the electrochemical doping of poly(3-methyl-thiophene) from aqueous nitrate solutions (Sunde et al.) 59
Impedance spectroscopy
An impedance spectroscopy study of charge propagation in Nafion® films containing discrete redox sites (Sharp et al.) 223
p-InP
Anodic electroluminescence of p-InP (Meulenkamp, Kelly) 183
Interfacial reaction
Adsorption voltammetry at a mercury ultramicroelectrode (Jin, Peng) 433
Ion-selective electrodes
Design of ionophore-free H^+-selective solvent polymeric membranes for further biomedical applications (Cosofret et al.) 169
Iron SALEN
Electrochemistry of zeolite-encapsulated complexes. Part 3. Characterization of iron and manganese SALEN entrapped in Y faujasite type zeolite (Gaillon et al.) 157
Irreversible reduction
Square-wave voltammetry applied to the totally irreversible reduction of adsorbate (O'Dea et al.) 287

Kinetics
The kinetics of the reduction processes of PbO film in H_2SO_4. Part 5. Potential step method on Pb+Sb alloy electrodes (Guo) 377

Lead antimony electrodes
The kinetics of the reduction processes of PbO film in H_2SO_4. Part 5. Potential step method on Pb+Sb alloy electrodes (Guo) 377

Lead oxide film
The kinetics of the reduction processes of PbO film in H_2SO_4. Part 5. Potential step method on Pb + Sb alloy electrodes (Guo) 377

Manganese SALEN
Electrochemistry of zeolite-encapsulated complexes. Part 3. Characterization of iron and manganese SALEN entrapped in Y faujasite type zeolite (Gaillon et al.) 157
Mercury ultramicroelectrode
Adsorption voltammetry at a mercury ultramicroelectrode (Jin, Peng) 433
Microelectrode detectors
A study of the response of microelectrodes used as detectors for gas chromatography (Lu, Tian) 27
Microelectrodes
Studies of electrode reactions in low ionic strength media using microelectrodes. Part 1. The reduction of nitrobenzenes in aprotic media (Bento et al.) 273
Midazolam
Square-wave voltammetry applied to the totally irreversible reduction of adsorbate (O'Dea et al.) 287
Multivalent ions
Successive complex formation of multivalent ions with octaethylene glycol dodecyl ether at the nitrobenzene/water interface (Kakiuchi) 191

Nafion adhesion
Improvement of the adhesion of a Nafion® modifying layer on electrodes (Cha et al.) 463
Nafion films
An impedance spectroscopy study of charge propagation in Nafion® films containing discrete redox sites (Sharp et al.) 223
Nickel complexes
Effects of axial anions and solvent on the redox behaviour of nickel complexes with C-functionalized tetraazamacrocycles (Boudon et al.) 363
Nimodipine
Nitro radical anion formation from nimodipine (Nuñez-Vergara et al.) 121
Nitrate solutions
Impedance analysis of the electrochemical doping of poly(3-methyl-thiophene) from aqueous nitrate solutions (Sunde et al.) 59
Nitrobenzenes
Studies of electrode reactions in low ionic strength media using microelectrodes. Part 1. The reduction of nitrobenzenes in aprotic media (Bento et al.) 273
Nitrobenzene–water
Successive complex formation of multivalent ions with octaethylene glycol dodecyl ether at the nitrobenzene/water interface (Kakiuchi) 191
Nitro radical anion
Nitro radical anion formation from nimodipine (Nuñez-Vergara et al.) 121
Noise reduction
Integrated electromodulated IR reflectance spectroscopy (EMIRS). Part 1: Noise reduction and better accuracy in the determination of EMIRS band centres (Beden) 1

Octaethylene glycol dodecyl ether
Successive complex formation of multivalent ions with octaethylene glycol dodecyl ether at the nitrobenzene/water interface (Kakiuchi) 191

Palladium electrodes
Electrochemical reduction of carbon dioxide on hydrogen-storing materials. Part 1. The effect of hydrogen absorption on the electrochemical behavior on palladium electrodes (Ohkawa et al.) 445
Phase transitions
On the role of hydrogen bonds in thiourea condensates— the correlation of a quantum-chemical approach with the experimental results (Romanowski et al.) 83
Phenacyl bromide
A new carbene route for the electrochemical reduction of phenacyl bromide (Montero et al.) 457
Phosphate buffered solutions
Alkali metal cations and pH effects on a splitting of the unusual adsorption states of Pt(111) voltammograms in phosphate buffered solutions (Feliu et al.) 475

Photoelectrochemistry
Photoelectrochemistry and Raman spectroelectrochemistry of cuprous thiocyanate films on copper electrodes in acidic media (Son et al.) 135
Platinum (111)
Two-dimensional bismuth + arsenic alloys supported on Pt(111): an electrochemical study (Dollard et al.) 205
The redox behaviour of compressed bismuth overlayers irreversibly adsorbed on Pt(111) (Evans, Attard) 337
Platinum electrodes
Alkali metal cations and pH effects on a splitting of the unusual adsorption states of Pt(111) voltammograms in phosphate buffered solutions (Feliu et al.) 475
Platinum gold
Improvement of the adhesion of a Nafion® modifying layer on electrodes (Cha et al.) 463
Polymeric membrane electrodes
Design of ionophore-free H^+-selective solvent polymeric membranes for further biomedical applications (Cosofret et al.) 169
Poly(3-methyl-thiophene)
Impedance analysis of the electrochemical doping of poly(3-methyl-thiophene) from aqueous solutions of $KClO_4$, KCl and K_2SO_4 (Sunde et al.) 43
Impedance analysis of the electrochemical doping of poly(3-methyl-thiophene) from aqueous nitrate solutions (Sunde et al.) 59
Potassium salt solutions
Impedance analysis of the electrochemical doping of poly(3-methyl-thiophene) from aqueous solutions of $KClO_4$, KCl and K_2SO_4 (Sunde et al.) 43
Potential step technique
The kinetics of the reduction processes of PbO film in H_2SO_4. Part 5. Potential step method on Pb + Sb alloy electrodes (Guo) 377
Pt electrodes
Electrochemical oxidation of H_2O_2 on Pt and Pt + Ir electrodes in physiological buffer and its applicability to H_2O_2-based biosensors (Zhang, Wilson) 253
Pt + Ir electrodes
Electrochemical oxidation of H_2O_2 on Pt and Pt + Ir electrodes in physiological buffer and its applicability to H_2O_2-based biosensors (Zhang, Wilson) 253
Quantum-chemical methods
On the role of hydrogen bonds in thiourea condensates— the correlation of a quantum-chemical approach with the experimental results (Romanowski et al.) 83
Raman spectroelectrochemistry
Photoelectrochemistry and Raman spectroelectrochemistry of cuprous thiocyanate films on copper electrodes in acidic media (Son et al.) 135
Redox behaviour
The redox behaviour of compressed bismuth overlayers irreversibly adsorbed on Pt(111) (Evans, Attard) 337
Redox characteristics
Solvent effects on the redox characteristics of different hydrazyls in nonaqueous media (Abou-Elenien) 303
Redox complexes
The electrochemistry of a cuprous cyanide strike-plating bath (Chu, Fedkiw) 107
Redox series
Electrochemistry of covalently linked supramolecular species: redox series of the trinuclear complex NC–Ru(bpy)$_2$–CN–Ru(DCE-bpy)$_2$–NC–Ru(bpy)$_2$–CN^{2+} (bpy = 2,2′-bipyridine; DCE-bpy = 5,5′-dicarboxyethyl-bpy) (Teixeira et al.) 243
Redox sites
An impedance spectroscopy study of charge propagation in Nafion® films containing discrete redox sites (Sharp et al.) 223
Solvation
Determination of the heterogeneous electron-transfer constant k_s of different hydrazyls using ac voltammetry (Abou-Elenien) 147
Solvation energy
Solvent effects on the redox characteristics of different hydrazyls in nonaqueous media (Abou-Elenien) 303
Solvent effects
Solvent effects on the redox characteristics of different hydrazyls in nonaqueous media (Abou-Elenien) 303
Effects of axial anions and solvent on the redox behaviour of nickel complexes with C-functionalized tetraazamacrocycles (Boudon et al.) 363

Square-wave voltammetry
Square-wave voltammetry applied to the totally irreversible reduction of adsorbate (O'Dea et al.) 287
Strike-plating
The electrochemistry of a cuprous cyanide strike-plating bath (Chu, Fedkiw) 107
Supramolecular species
Electrochemistry of covalently linked supramolecular species: redox series of the trinuclear complex NC–Ru(bpy)$_2$–CN–Ru(DCE-bpy)$_2$–NC–Ru(bpy)$_2$–CN^{2+} (bpy = 2,2′-bipyridine; DCE-bpy = 5,5′-dicarboxyethyl-bpy) (Teixeira et al.) 243

Tetraazamacrocycles
Effects of axial anions and solvent on the redox behaviour of nickel complexes with C-functionalized tetraazamacrocycles (Boudon et al.) 363
Tetrabutyl ammonium adsorption
Double-layer dynamics in the adsorption of tetrabutyl ammonium ions at the mercury–water interface. II: Capacitance transients (Wandlowski, De Levie) 413
Tetraphenylporphyrins
Adsorption characteristics of tetraphenylporphyrins on an amalgamated platinum electrode (Khanova, Lafi) 393
Thiourea condensates
On the role of hydrogen bonds in thiourea condensates— the correlation of a quantum-chemical approach with the experimental results (Romanowski et al.) 83
Toxicity
The electrochemistry of a cuprous cyanide strike-plating bath (Chu, Fedkiw) 107
Trinuclear complexes
Electrochemistry of covalently linked supramolecular species: redox series of the trinuclear complex NC–Ru(bpy)$_2$–CN–Ru(DCE-bpy)$_2$–NC–Ru(bpy)$_2$–CN^{2+} (bpy = 2,2′-bipyridine; DCE-bpy = 5,5′-dicarboxyethyl-bpy) (Teixeira et al.) 243

Ultra-trace analysis
Adsorption voltammetry at a mercury ultramicroelectrode (Jin, Peng) 433

Von Neumann stability
The von Neumann stability of finite-difference algorithms for the electrochemical kinetic simulation of diffusion coupled with homogeneous reactions (Bieniasz) 13

Zeolite-encapsulated complexes
Electrochemistry of zeolite-encapsulated complexes. Part 3. Characterization of iron and manganese SALEN entrapped in Y faujasite type zeolite (Gaillon et al.) 157
